Summary

Creative and performance-driven web developer with hands-on experience in building dynamic, responsive, and scalable web applications using React and modern frontend technologies. Adept at translating UI/UX designs into interactive experiences, collaborating in agile teams, and implementing real-time features. Enthusiastic about crafting intuitive user interfaces and writing clean, maintainable code.

Education

Graphic Era Hill University, Haldwani	Sept 2022 - June 2026
B.Tech. in Computer Science and Engineering	*CGPA: 8.24*
Evergreen Sr. Sec. School	March 2021 - March 2022
Intermediate	*91.8%*
Child Sacred High School	March 2019 - March 2020
High School	*84.2%*

Projects

- **SmartCity – Urban Issue Reporting Platform (React, Node.js, MongoDB, WebSockets)** [GitHub]:
  - Developed a user-friendly frontend using React to allow citizens to report issues and track status.
  - Implemented a chatbot interface to enhance user engagement and automate support.
  - Enabled real-time issue tracking and notifications using WebSockets for instant admin alerts.

- **MBuddy - Learning Management System (React, Redux, Razorpay, Node.js)** [GitHub]:
  - Built interactive student/instructor dashboards using React with role-based access.
  - Integrated Razorpay payment gateway with real-time transaction feedback on the frontend.
  - Leveraged Redux for scalable state management and smoother UI interactions.

- **Sensai AI Career Coach (Next.js, Clerk, Gemini API, PostgreSQL, Prisma)** [GitHub]
  - Developed a full-stack career coaching platform that generates AI-based resumes and cover letters tailored to user profiles.
  - Integrated Gemini API to dynamically create content based on user inputs for job applications.
  - Implemented weekly-updated industry insights dashboard highlighting trending technologies and hiring patterns.
  - Built a question bank system allowing users to practice categorized MCQ-based questions for interview prep.

Skills

Frontend: HTML, CSS, JavaScript, TypeScript, ReactJS, Redux, Next.js, Responsive Design

Backend: Node.js, Express.js, REST API, WebSockets

Tools: Git, GitHub, Postman

Databases: MongoDB, SQL, MySQL

Other: Debugging, Code Optimization, Agile Collaboration

Awards & Certifications

- Certificate in Machine Learning – PreGrad
- Certificate in ReactJS - Great Learning
- Finalist in the 2022 Tech Wizard competition at Graphic Era Deemed to be University
- Top 5 in intra-college SIC hackathon
